

## Science and the Symphony of Creation with John D. Mays

### Episode 3: Discipleship and Creation

#### Outline:

##### Discipleship and Science

- Prioritize practicing creation care.
  - Make care for the creation part of our worship.
  - Song of a Scientist by Calvin DeWitt:
    - Awareness
    - Appreciation
    - Stewardship
- Learn from Christ
  - Love – the fundamental principle of creation (Colossians 1)
  - Patience – while God slowly reveals Himself
  - Courage – in the midst of what we don't understand
  - Prayer – pray for faith, faithfulness, hope
  - Unhurried movement – slow down, and bring your students with you
    - Confess sin. Show your student what a humble disciple of Christ looks like.
  - Wisdom – we need wisdom to sort through the knowledge out there
- Enlarge the view by bringing in other voices.
- Meditate on Scripture, meditate in nature, and meditate on nature.
- Meditate on God's reality in creation vs. scientific knowledge.
